ABOUT TOMORROW RNG

Tomorrow RNG (TRNG), located in McKinney, TX operates a jurisdictional natural gas transmission pipeline in Arkansas. The Morrow pipeline system identify as SouthTex/Cambrian near Sebastian County.

WHAT DOES TOMORROW RNG DO IF A LEAK OCCURS?

To prepare for the event of a leak, pipeline companies regularly communicate, plan and train with local emergency providers. Upon the notification of an incident or leak, Tomorrow RNG will immediately dispatch trained personnel to assist emergency responders.

The pipeline operator and emergency responders are trained to protect life, property and facilities in case of an emergency.

Tomorrow RNG will also take steps to minimize the amount of product that leaks out and to isolate the pipeline emergency.

MAINTAINING SAFETY AND INTEGRITY OF PIPELINES

Tomorrow RNG invests significant time and capital maintaining the quality and integrity of their pipeline systems.

Operator personnel continually monitor the pipeline system and assess changes in pressure and flow. We notify field personnel if there is a possibility of a leak.

Specific information about our emergency response program and operations may be obtained by contacting us directly.

ARKANSAS COUNTRIES OF OPERATION:

Sebastian

Changes may occur. Contact the operator to discuss their pipeline systems and areas of operation.

PRODUCTS TRANSPORTED

Product: Natural Gas

Leak Type: Gas

Vapors:

Lighter than air and will generally rise and dissipate. May gather in a confined space and travel to a source of ignition.

Product Hazards:

Will be easily ignited by heat, sparks or flames and will form explosive mixtures with air. Vapors may cause dizziness or asphyxiation without warning and may be toxic if inhaled at high concentrations. Contact with gas or liquefied gas may cause burns, severe injury and/or frostbite.
