**ABOUT SHORE TERMINALS LLC**

NuStar Shore Terminals LLC operations include petroleum bulk storage facility and associated short pipelines in Portland, Oregon.

We are committed to ensuring that we do our part to store the products that a changing market requires. In partnership with our stakeholders, by the end of in Portland will have increased its clean fuels storage to over 14 million gallons.

**WHAT DOES NUSTAR DO IF A LEAK OCCURS?**

To prepare for the event of a leak, pipeline companies regularly communicate, plan and train with local emergency responders. Upon the notification of an incident or leak the pipeline company will immediately dispatch trained personnel to assist emergency responders.

Pipeline operators and emergency responders are trained to protect life, property and facilities in the case of an emergency.

Pipeline operators will also take steps to minimize the amount of product that leaks out and to isolate the pipeline emergency.

**MAINTAINING SAFETY AND INTEGRITY OF PIPELINES**

Safety and environmental performance is NuStar's first priority. Ensuring the mechanical integrity of our pipelines helps us to successfully meet our goal of protecting employees, customers, contractors, and the public and environment. The NuStar Pipeline Integrity Management Program defines how we work to achieve this goal and comply with applicable laws and regulations.

The NuStar Pipeline Integrity Management Program assists us in preventing leaks and spills, determining pipelines that could affect High Consequence Areas (HCA's), and identifying evaluation and improvement opportunities.

**PRODUCTS TRANSPORTED**

**Product:** Hazardous Liquids [such as: Diesel Fuel, Gasoline, and other clean fuels such as Ethanol, Bio-Fuel and renewable diesel]

**Leak Type:** Liquid

**Vapors:** Initially heavier than air and spread along ground and collect in low or confined areas. Vapors may travel to source of ignition and flash back. Explosion hazards indoors, outdoors or in sewers.

**Health Hazards:** Inhalation or contact with material may irritate or burn skin and eyes. Fire may produce irritating, corrosive and/or toxic gases. Vapors may cause dizziness or suffocation. Runoff from fire control or dilution water may cause pollution.

**EMERGENCY CONTACT:**

**1-800-433-4250**

**PRODUCTS/DOT GUIDEBOOK ID#/GUIDE#:**

Bio-Fuel	1202	128
Diesel Fuel	1202	128
Ethanol	1170	127
Gasoline	1203	128

**OREGON**

**COUNTIES OF OPERATION:**

Multnomah

*Changes may occur. Contact the operator to discuss their pipeline systems and areas of operation.*
