

Overton Midstream, LLC

ABOUT OVERTON MIDSTREAM, LLC

Overton Midstream, LLC (Overton) is a natural gas production and gathering company located in Texas.

WHAT DOES OVERTON DO IF A LEAK OCCURS?

To prepare for the event of a leak, pipeline companies regularly communicate, plan and train with local emergency responders. Upon the notification of an incident or leak the Overton will immediately dispatch trained personnel to assist emergency responders.

Pipeline operators and emergency responders are trained to protect life, property and facilities in the case of an emergency.

Pipeline operators will also take steps to minimize the amount of product that leaks out and to isolate the pipeline emergency.

MAINTAINING SAFETY AND INTEGRITY OF PIPELINES

We believe it is our responsibility to be good neighbors and maintain a strong commitment to damage prevention and safety through the implementation of industry developed best management practices and monitoring of our operations. Our commitment extends to employees, contractors, local communities, and others who may be impacted by our operations. We conduct our operations in a responsible manner to protect human health and safety while minimizing environmental impacts.

Call before you dig.

BEFORE YOU DIG

Contact a Texas one call center by calling 811 or visiting www.texas811.org at least 48 hours in advance (two business days, excluding weekends and holidays) before you dig.

RECOGNIZING A LEAK

In the unlikely event of a pipeline leak: You might see, hear, or smell

- Dirt being blown into the air Sight
- Discolored vegetation 
- A white vapor stream or mist-like cloud Sound
- A roaring, blowing, or hissing sound 
- An unusual sulfur or rotten egg odor Smell

PRODUCTS TRANSPORTED IN YOUR AREA

PRODUCT	LEAK TYPE	VAPORS
NATURAL GAS	Gas	Lighter than air and will generally rise and dissipate. May gather in a confined space and travel to a source of ignition.
HEALTH HAZARDS	Will be easily ignited by heat, sparks or flames and will form explosive mixtures with air. Vapors may cause dizziness or asphyxiation without warning and may be toxic if inhaled at high concentrations. Contact with gas or liquefied gas may cause burns, severe injury and/or frostbite.	

EMERGENCY CONTACT:

1-800-880-1552

PRODUCTS/DOT GUIDEBOOK ID#/GUIDE#:
Natural Gas 1971 115

TEXAS COUNTIES OF OPERATION:

Cherokee

Changes may occur. Contact the operator to discuss their pipeline systems and areas of operation.

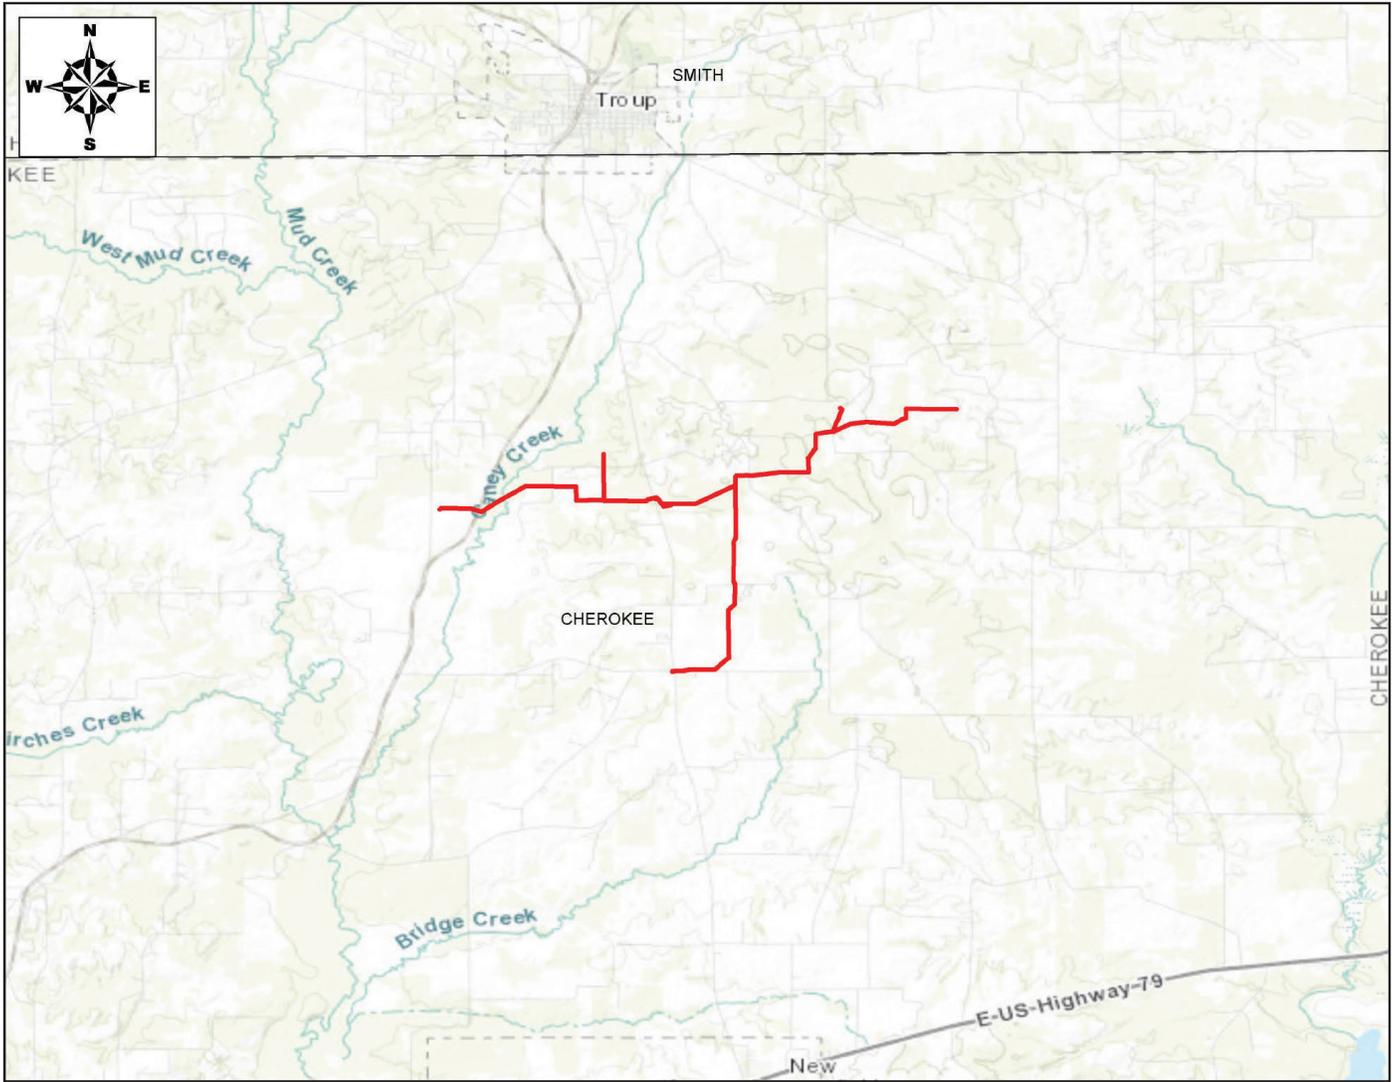

RESPONDING TO A LEAK

EVACUATE THE AREA IMMEDIATELY
