ABOUT WOLVERINE PIPE LINE CO.

Wolverine Pipe Line Co. (Wolverine) is a transportation service company, headquartered in Portage Michigan and incorporated in 1952. Wolverine transports liquid petroleum products through 700+ miles of active steel pipelines through three states. Connecting Chicago refineries to terminals in Northwest Indiana and Michigan.

COMMITMENT TO SAFETY, HEALTH AND THE ENVIRONMENT

Wolverine strives to conduct its business in a manner that protects the environment and the safety and health of the public, emergency responders, customers & employees. We are committed to continuous efforts to identify and eliminate safety risks associated with our operations.

As your neighbor, Wolverine works hard to operate in a safe and environmentally responsible manner. We adhere to all applicable environmental, construction and pipeline design regulations and apply industry standards where laws or regulations do not exist.

SIGNS OF A PIPELINE LEAK

The following are indications of a possible pipeline leak:

- Brown or discolored vegetation
- Dirt being blown into the air
- Sheen on water surfaces
- Fire at or below ground level
- Stains or pools of hydrocarbons not usually present
- Continuous bubbling in water
- An unusual hissing or roaring noise
- An unusual odor such as gasoline, oil, or sulfur

EMERGENCY RESPONSE ACTIONS

In the event of an emergency, Wolverine would take the following actions:

- Shut down and isolate the pipeline by closing valves

- Dispatch trained personnel to the scene
- Work with emergency responders and the public in the affected area
- Contain and remove released product

PRIORITIES FOR MANAGING A PIPELINE INCIDENT

- Safety First – Consider your safety and the safety of the public.
 - Shut down motor vehicles and remove ignition sources from the area
 - Establish a safe perimeter around the incident site
 - Stay upwind or uphill
 - Only enter hazardous area if you are properly trained and equipped
- Isolate the area and size up the incident
 - Secure the site
 - Establish hot, warm, and cold zones
 - Establish security
- Identify the operator
 - Look for pipeline markers
- Contact the Operator
 - Exchange location, nature of the problem, and a telephone number at which someone can be reached

WOLVERINE STATE SPECIFIC CONTACTS

| Area Office | Phone |
|---------------------------|--------------|
| Niles Field Office | 269-683-6305 |
| Portage HQ..... | 269-323-2491 |
| Freedom Field Office..... | 517-784-3393 |
| Alma Field Office..... | 989-463-1976 |
| Hammond Field Office..... | 219-844-0355 |

PIPELINE MARKERS

Pipeline markers are located along the right of way, at road intersections, waterways, railroad crossings, and all above ground facilities. These signs identify the approximate location of the pipeline and specify the type of product, operator, and emergency contact information.

| Crawford | Ottawa |
| Gratiot | Saginaw |
| Ingham | Van Buren |

Changes may occur. Contact the operator to discuss their pipeline systems and areas of operation.

COMMUNITY AWARENESS THROUGH INTERACTION: THE WOLVERINE PIPE PROGRAM

In early 2010, Wolverine Pipe Line Company launched a new and innovative program aimed at educating and enhancing relationships with every community and key stakeholders along Wolverine’s 700+ miles of underground steel pipeline. Since then we have visited over 100 communities across Michigan, Indiana & Illinois.

Wolverine’s community outreach program is called the Partners in Pipeline Education or PIPE. Through the PIPE Program, we make personal connections to the local Fire Departments, Police Departments, Emergency Management Personnel, Government Officials and other stakeholders with whom we work with for normal operation and maintenance activities and in case of an actual emergency.

If you are interested in scheduling a PIPE Presentation, contact us today at pipeprogram@wplco.com.
